Professional Summary

Full-stack software developer with experience building web applications using **TypeScript**, **JavaScript**, **Next.js**, and **React**. Proficient in designing flexible databases with **PostgreSQL** and **Supabase** to integrate **RESTful APIs** and deploying applications locally or through cloud-based servers. Skilled in leveraging **Next.js** for server-side rendering and caching to optimize performance, SEO, and user experience across multiple devices.

Passionate about writing clean, maintainable, and type-safe code with **TypeScript** and **Rust**, ensuring scalability and efficiency. Collaborative team player with a proven track record of working in cross-functional teams to deliver projects on time and exceed client expectations.

Technical Skills

- **Programming Languages:** TypeScript, JavaScript, Rust
 - **Front-End Development:** Next.js, React, HTML5, CSS3, SASS/SCSS, Tailwind, Redux
 - **Back-End Development:** Node.js, RESTful APIs, PostgreSQL, MySQL, Supabase
 - **DevOps & Deployment:** Docker, Kubernetes, CI/CD (Vercel, Heroku, Cloudflare, Netlify), Git
 - **Design & Tools:** Figma, Photoshop, Illustrator, Linux, TrueNAS SCALE, SEO optimization
-

Professional Experience

Full-Stack Developer - Tabistar, New York

Jan 2023 – Nov 2024

- Designed and developed a scalable restaurant and event platform using **Next.js** and **TypeScript**, ensuring seamless user experiences across mobile, tablet, and desktop.
- Built and optimized **Supabase** database infrastructure, improving data management efficiency.
- Collaborated with cross-functional teams to deliver high-performance, responsive web applications.

Full-Stack Developer / Web Developer - Miyabi Marketing, New York (Remote)

Feb 2022 – Present

- Developed multiple web applications using **Next.js** with **TypeScript/JavaScript** leveraging **SSR** for faster loading times for end users.
- Implemented scalable **PostgreSQL** database solutions with Supabase and designed restful APIs for data fetching.
- Automated deployment workflows using **Docker**, **Kubernetes**, and CI/CD pipelines, improving deployment efficiency.

Freelance Developer - Tokyo, Japan

Jan 2020 – Jan 2022

- Delivered custom web applications for clients using **JavaScript** and **React**.
 - Designed and implemented efficient **PostgreSQL** database schemas, reducing query times.
 - Provided ongoing maintenance and technical support, ensuring 99.9% application uptime.
-

Education

Computer Software Engineering - Flatiron School, New York (Remote)

2021 – 2022

International Relations – Quantitative Social Science - Harvard Extension School (Remote)

2018 – 2019

Design/Fine Arts - Savannah College of Art and Design

2005-2009
