## VOLUNTEER

### All Japan High School Speech Contest

Administration

Worked directly under the chairman to provide assistance and managed over 50 English speaking staff and students.

### Southampton Animal Shelter Foundation

Animal Fostering

Provided housing and care to abandoned and abused pet rabbits found. Extended support to socialize baby rabbits for future adoption.

## WORK EXPERIENCE

### Web Developer

Miyabi Marketing

Designed, built, and maintained multiple client websites for various businesses. Utilized various CMS platforms and custom built websites/web apps using HTML/Javascript, Next.js, and React.

- Collaborated with clients' team to provide prototype and design on Figma.
- Refactored clients' codebase to debug, add, or improve performance for SEO.
- Utilized various CMS (e.g. Wordpress, Shopify) to create websites/storefronts.

### Full Stack Developer

Tabistar LLC.

Worked with cross-functional team to plan, design, build, and deploy scalable web application for restaurants and events using Next.js, Node.js, Supabase, and Vercel from the ground up.

- Planned and constructed database to allow flexibility aimed towards growth.
- Designed and built UI and custom animations for responsive use.
- Created web server with API endpoints for restful data fetching.

### Software Developer

Freelance

Provided consultation and support to deliver React components to remote clients.

- Gave technical support remotely to clients.
- Built custom reusable React components for client web apps.

## TECHNICAL PROJECTS

### emma

<https://www.meetemma.ai>

emma is a skincare focused generative AI agent which uses an AI vision model to process images and uses vectorized embedded data to provide feedback on skincare routines while suggesting products directly from a PostgreSQL database.

#### Techstack

Next.js, Rust, Ollama, Redux, Tailwind, PostgreSQL, Docker, Tailscale

### Tabistar

<https://www.tabistar.com>

A web application to help users find local restaurants, cafes, and events in the Hamptons, NY. The web application also allows restaurant owners to log in to edit their own restaurant or cafe profile, or post events.

#### Techstack

Next.js, Supabase, Sanity.io, Vercel, Node, Redux, Sass

### Canadian Red Cross

Ukraine Humanitarian Fundraising Event

Organized and contributed efforts with the Canadian Red Cross to raise money to provide food and shelter for children affected by the Russo Ukrainian War.
